LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

REQUEST TO CORRECT FILING RECEIPT

A copy of the filing receipt for the above application is enclosed. It contains two errors: one apparently by the Office, and the other by the undersigned, and is marked up in red to show the requested corrections.

Under the heading "Domestic Priority data as claimed by applicant", both the serial number and the filing date of the provisional application from which domestic priority is claimed are incorrect. The serial number of the provisional application was 60/392,381, not 60/392,382 as stated in paragraph [0001] of the present application; the error is reflected on the Filing Receipt. A Preliminary Amendment which corrects this error is enclosed.

The Filing Receipt also indicates 07/01/2002 as the date of the application from which domestic priority is claimed. However, as indicated on the enclosed provisional application filing receipt, the provisional application was filed on 06/28/2002, and this filing date was correctly identified in paragraph [0001] of the present nonprovisional application.

Docket No. 378-21-020

PATENT

It is requested that a new Filing Receipt be generated reflecting the correction to both the serial number and filing date of the priority provisional application.
